

$\varepsilon = 0.01$ (near OT)

$\varepsilon = 0.5$

$\varepsilon = 5.0$ (near SB)

p_{src}

p_{tgt}

coupling: exact OT (Hungarian)
paths: straight (zero noise)

coupling: Sinkhorn γ_ε^*
paths: Brownian bridge, $\sigma = \sqrt{\varepsilon/2}$

coupling: spread (high ε)
paths: wiggly bridges $\approx$ Schrödinger bridge
